What is forex trading and how does it work?

Forex trading, also known as foreign exchange or FX trading, is the conversion of one currency into another. FX is one of the most actively traded markets in the world, with individuals, companies and banks carrying out around \$7.5 trillion worth of forex transactions every single day.

AVERAGE DAILY TRADING VOLUME

Meta Trader 5?

MetaTrader 5, the powerful automated trading platform, offers advanced tools for successful trading analysis and trades in the financial markets

We are introducing

Forex trading robots are automated software programs used to generate trading signals in FX markets. Forex robots are designed to remove the psychological element of trading, which can be detrimental.
